

PAGE MACRAE ENGINEERING is a dynamic and leading edge engineering company, with fifty five years heavy engineering experience. We offer a very good working environment in our modern workshops and offices at Mt Maunganui.

PAGE MACRAE ENGINEERING has the following vacancies available:

Experienced Pipe Fitter/Welders

We require experienced and highly skilled Tig, Stick, FCAW, SAW Pipe Fitter/Welders to ASME IX standards.

Applicants must have a minimum of 3 years pipe work experience and be able to provide evidence of ASME IX standards. All applicants will be required to sit and pass a weld test in the 6G position. Pipe fitters will also require a good understanding of isometric piping drawings.

We have vacancies for both shop work in Mt Maunganui and site work in the North Island, commencing in the new year.

Drug and alcohol testing is mandatory, both pre employment and randomly throughout employment.
